

## TREK / FAST AND LIGHT

The Trek's mission is simple: to achieve optimum performance while moving fast in extreme environments by providing highly technical, yet lightweight eyewear. For those committed to the outdoors via mountaineering, climbing and trail running, the Trek is the perfect-combination of technical mountaineering principles and lightweight performance ergonomics. Detachable shields block lateral rays from intense glare as well as offer superior ventilation when necessary. Julbo's Flex Nose design and 360° adjustable temples provide optimum hold. It's available with either the Cameleon or Zebra lens for optimal visibility and protection against intense sunlight from desert to glacier conditions. Purely Julbo.

Lens : Zebra - Frame : Black / Lime green

## TREK

### TECHNICAL FEATURES

#### Full Venting

Aerated structure that allows complete air circulation to avoid fog.

#### Adjustable Strap

Hold and security.  
Strap length can be adjusted.

#### 360° adjustable temples

Can be bent in every direction allowing for a custom fit

#### Removable Side shields

Side protection against harsh sunlight.

#### Removable Sweat Blocker

Foam insert absorbs moisture that could impede visibility.

#### Total Cover

Maximum protection in extreme conditions against harsh sunlight.

#### Flex Nose

Adjustable nose piece for perfect fit, adherent material for optimal hold in all situations.

#### Front Venting

Natural front air flow due to the lens shape or mounting structure

#### RX Clip

Julbo offers a prescription clip-on. RX Clip Adaptable to different sunglass frames, removable when needed.

#### Asian Fit

the ergonomics of the frame are adapted for Asian facial shapes.

#### RX Trem

The frame can be equipped with corrective solar lenses.

#### Optical clip

#### FROM SHADE TO LIGHT

- > The photochromic lens gets darker or lighter in accordance with light intensity. Protection category 2 to 4.
  - > High-speed activation: from 22 to 28 seconds.
  - > Exceptional anti-fog coating: no condensation, maximum longevity.
  - > Hydrophobic coating on the outside: prevents marking and facilitates the removal of water.
  - > Brown: accentuates relief.
  - > Available in RX Trek version.
- // Recommended for mountain biking, trail running, climbing, cross-country skiing, etc.
