

## COAST RX 472 / AT HOME ON LAND OR SEA

The new Coast sunglasses are designed for sailors who love to ride the waves off our coasts. Super-elegant with their square, wide and deep shapes, they offer outstanding vision with polarized lenses to filter out water glare. Curved and grip temples able to accommodate a cord mean they stick to the face whatever the weather and will stay there even when on dry land.

Lens : RXTrem Polarized 3 gray - Frame : Translucent gray

## COAST RX 472 / LENSES AVAILABLE

### RXTrem Cameleon

#### ALL-TERRAIN PURE VISION

- > The photochromic lens gets darker or lighter in accordance with light intensity. Protection category 2 to 4.
- > NTS technology: the lens gets darker or lighter regardless of the temperature.
- > Polarizing: eliminates snow glare, ensuring purity of vision.
- > Brown: accentuates relief.
- // Recommended for mountaineering, ski, etc.

### RXTrem Octopus

#### A CLEAR VIEW TO THE HORIZON IN EVERY WEATHER

- > This light-sensitive, water-repellent and polarizing lens, developed for the Nautic range, is suitable for all water sports.
- > The photochromic lens gets darker or lighter in accordance with light intensity. Protection category 2 to 4.
- > NTS technology: the lens gets darker or lighter regardless of the temperature.
- > Polarizing: eliminates water glare, ensuring purity of vision.
- > External hydrophobic coating makes water slide off the lens, improving visibility.
- > Grey: faithful color reproduction.
- // Recommended for sailing, kitesurfing, kayaking, etc.

## COAST RX 472 / LENSES AVAILABLE

### RXTrem Falcon

#### CLEAR VISION AT ALL TIMES

- > The photochromic lens gets darker or lighter in accordance with light intensity. Protection category 2 to 3.
  - > Polarizing: eliminates glare from all reflective surfaces (water, tarmac, glass etc.) and provides the purest of vision.
  - > Anti-reflective coating: reduces eyestrain and eliminates interference glare.
  - > Inside oil-repellent coating: prevents finger or grease marks and makes cleaning easier.
  - > BWS (Behind the Windshield): the lens will get darker behind a windshield and is particularly suitable for driving.
  - > Copper: accentuates contrasts, more comfortable vision.
- // Recommended for everyday life and driving.

### RXTrem Zebra

#### FROM SHADE TO LIGHT

- > The photochromic lens gets darker or lighter in accordance with light intensity. Protection category 2 to 4.
  - > High-speed activation: from 22 to 28 seconds.
  - > Brown: accentuates relief.
- // Recommended for mountain biking, trail running, climbing, cross-country skiing, etc.

## COAST RX 472 / LENSES AVAILABLE
