

VERMONT CLASSIC / HISTORY IN THE MAKING

Our traditional mountaineering sunglasses are timeless classics and symbolic of our history with the mountains. Rock stars, mountaineers and Julbo fans from all walks of life have praised them to the skies. To celebrate our 125th anniversary and give our fans the sunglasses they expect, we have reissued the legendary Vermont. This is our traditional mountaineering model with round lenses and side shields.

PACKAGING

VERMONT CLASSIC / LENSES AVAILABLE

SPECTRON4 POLYCARBONATE

Spectron 4

- > protection category: 4
 - > Anti-reflective coating: improves visual comfort by eliminating stray reflections.
 - > Flash coating: improves visible light filtering with mirror effect lenses. It reflects the rays of light and increases the filter effect.
 - > Available in RX Trem (prescription sunglasses program)
- // Recommended for all sports where there is exceptionally bright sunlight.

SPECTRON3CF POLYCARBONATE

Spectron 3 CF

- > protection category: 3
 - > Flash coating: improves visible light filtering with mirror effect lenses. It reflects the rays of light and increases the filter effect.
- // Light yet offers good shock resistance, is multipurpose and suitable for all types of activity.
