## WELLINGTON RX 481 / LENSES AVAILABLE

RXTREM  
**ZEBRA** | 2  
PHOTOCHROMIC | 4

### RXTrem Zebra

#### FROM SHADE TO LIGHT

- > The photochromic lens gets darker or lighter in accordance with light intensity. Protection category 2 to 4.
- > High-speed activation: from 22 to 28 seconds.
- > Brown: accentuates relief.
- // Recommended for mountain biking, trail running, climbing, cross-country skiing, etc.

RXTREM  
**CAMELEON** | 2  
PHOTOCHROMIC & POLARIZED | 4

### RXTrem Cameleon

#### ALL-TERRAIN PURE VISION

- > The photochromic lens gets darker or lighter in accordance with light intensity. Protection category 2 to 4.
- > NTS technology: the lens gets darker or lighter regardless of the temperature.
- > Polarizing: eliminates snow glare, ensuring purity of vision.
- > Brown: accentuates relief.
- // Recommended for mountaineering, ski, etc.

RXTREM LIGHT  
**ZEBRA** | 1  
PHOTOCHROMIC | 3

### RXTrem Zebra Light

#### FROM DAWN TO DUSK

- > The photochromic lens gets darker or lighter in accordance with light intensity. Protection category 1 to 3. Fast activation speed.
- > Brown: accentuates relief.
- // Recommended for trail running, mountain biking, etc.

RXTREM  
**OCTOPUS** | 2  
PHOTOCHROMIC & POLARIZED | 4

### RXTrem Octopus

#### A CLEAR VIEW TO THE HORIZON IN EVERY WEATHER

- > This light-sensitive, water-repellent and polarizing lens, developed for the Nautic range, is suitable for all water sports.
- > The photochromic lens gets darker or lighter in accordance with light intensity. Protection category 2 to 4.
- > NTS technology: the lens gets darker or lighter regardless of the temperature.
- > Polarizing: eliminates water glare, ensuring purity of vision.
- > External hydrophobic coating makes water slide off the lens, improving visibility.
- > Grey: faithful color reproduction.
- // Recommended for sailing, kitesurfing, kayaking, etc.

## WELLINGTON RX 481 / LENSES AVAILABLE

**RXTrem**  
**FALCON** | 2  
PHOTOCHROMIC  
& POLARIZED | 3

### RXTrem Falcon

#### CLEAR VISION AT ALL TIMES

- > The photochromic lens gets darker or lighter in accordance with light intensity. Protection category 2 to 3.
  - > Polarizing: eliminates glare from all reflective surfaces (water, tarmac, glass etc.) and provides the purest of vision.
  - > Anti-reflective coating: reduces eyestrain and eliminates interference glare.
  - > Inside oil-repellent coating: prevents finger or grease marks and makes cleaning easier.
  - > BWS (Behind the Windshield): the lens will get darker behind a windshield and is particularly suitable for driving.
  - > Copper: accentuates contrasts, more comfortable vision.
- // Recommended for everyday life and driving.

**RXTrem**  
**SPECTRON3**  
POLYCARBONATE

### RXTrem Spectron 3

- > protection category: 3
- // Light yet offers good shock resistance, is multipurpose and is suitable for all types of activity.

## WELLINGTON RX 481 / LENSES AVAILABLE

**RXTREM**  
**SPECTRON4**  
POLYCARBONATE

### RXTrem Spectron 4

- > protection category: 4
- > Anti-reflective coating: improves visual comfort by eliminating stray reflections.
- > Flash coating: improves visible light filtering with mirror effect lenses. It reflects the rays of light and increases the filter effect.
- // Recommended for all sports where there is exceptionally bright sunlight.

**RXTREM**  
**POLARIZED3**  
POLYCARBONATE

### RXTrem Polarized 3 brown

- > protection category: 3
- > Polarizing: Eliminates bounce-back glare on reflective surfaces
- // Light, and offering good shock resistance, it is multipurpose and suitable for all types of activity at sea or in the mountains.

**RXTREM**  
**POLARIZED3**  
POLYCARBONATE

### RXTrem Polarized 3 gray

- > protection category: 3
- > Polarizing: Eliminates bounce-back glare on reflective surfaces
- // Light, and offering good shock resistance, it is multipurpose and suitable for all types of activity at sea or in the mountains.

**RXTREM**  
**POLARIZED3**  
POLYCARBONATE

### RXTrem Polarized 3 green

- > protection category: 3
- > Polarizing: Eliminates bounce-back glare on reflective surfaces
- // Light, and offering good shock resistance, it is multipurpose and suitable for all types of activity at sea or in the mountains.
